Bob and Jim – This email is transmitting EPAs draft final modifications to Section 2 of the Portland Harbor Feasibility Study. We have considered your comments submitted on April 23 in finalizing this section of the document. The PRG tables and the ARAR tables provided are subject to change based on the continued evaluation of the alternatives being developed for the FS. If there are updates to these tables, EPA will provide the updates with Sections 3 & 4. I'm also including an updated version of FS Section 1. We have modified the language in Sections 1.2.3.4 and 1.2.3.5 to add clarity for the groundwater and river bank discussions in the text. The modified language is provided in redline.

Let me know if you have any questions.

Regards,

Kristine Koch
